Also, at AURAK, you will learn these intercultural competencies, through studying, working and completing assignments with students and professors who are very different from you, in background, religion and culture. These competencies, in tandem with academic knowledge gained, will equip you for the globally diverse work world where you will live and work. As an AURAK graduate, you will be well equipped with both academic and intercultural competencies necessary for a rewarding and unlimited professional future.

We encourage you to cultivate new friends, attend university events, virtually join clubs and organizations; and participate on athletic teams and attend programs and activities planned appropriately to keep you safe and healthy. Representatives from the SGA serve on many university committees in order to represent student interests. All student organizations or clubs must be authorized and registered annually with the Office of Student Success. Registration includes completing the appropriate forms and submitting a constitution, bylaws, and membership roster. Alumni

Why AURAK Alumni?
Creating an engaged, supportive alumni network is crucial to an institution’s success. Good alumni relationships bring many benefits to both the institution and the alumni. AURAK Alumni are using their transformative educational experiences as a stepping-stone to achieve their goals and fuel innovation and inspiration in the UAE and around the world.

Supporters - An engaged alumni network allows the University to benefit from the skills and experience of our graduates, by offering their support to our students, to the institution, and to each other. If we keep them properly informed and engaged, alumni are our most loyal supporters and our best ambassadors, offering invaluable marketing and promotion across their personal and professional networks.

Expertise - Talented alumni will likely have a wealth of experience and skills to share with current students via talks and newsletters. In certain cases, this could go even further with alumni offering to
support students practically in work placements and help them launch their careers.

**Employability** - Alumni also donate their valuable time to offer careers support to current students through innovative schemes such as our CEPE training courses, work shadowing and professional networking opportunities. These enhance the students’ experience and give them that competitive edge in today’s tough job market. It is through this support from alumni that we are also able to retain our place as one of the highest-ranked institutions in the UAE for graduate employability and starting salary.

**Financial** - Because of the dedication and gratitude many alumni have for the institution, they are often generous with fundraising efforts. Financial donations enable us to offer life-changing scholarships and bursaries to talented students who may otherwise have to give up their studies. They also enable City to provide students with advanced facilities and equipment for teaching and pioneering research.

**Alumni Benefits**

Whether you are a recent graduate or earned your degree several years ago, it is a good idea to reach out to the Institutional Advancement department office and register your contact information. That way you will be able to take advantage of the benefits associated with being an alumnus.

**Wider Professional Network** - Alumni associations are rife with opportunities for expanding a graduate’s professional network. Graduates have the opportunity to network with recent graduates as well as graduates several years their senior and these connections can lead to internships, jobs, clients, partnerships and other valuable career opportunities.

**Personal development** - Whilst having an engaged alumni network is beneficial to the institution, the benefit to the alumni themselves should not be overlooked. The alumni professional mentoring journey will be very rewarding. This will help them to learn a lot about themselves and their own career trajectory.

**Access to College Resources Post Graduation** - This might include access to library materials, extensive journal and periodical databases, and even educational amenities on campus, such as certain labs and equipment.

**Connect with Professors** - Graduates could connect with professors in their field to gain worthwhile experience or guidance with a particular research topic through this platform.

**Connect with the Community** - Many associations partner with their local community so that alumni can provide assistance to the area while also having the opportunity to build relationships with community members and leaders.

**Socializing** - Graduates can take a break from work and post-college life and reconnect with former classmates as well as other alumni, while making social connections that could lead to lasting friendships. They will have several chances to partake in social events, such as football and basketball
challenges and other sports, and alumni award ceremonies.

This department provides the following two areas of assistance.
- Internships
- Career Development

**Internships**
Students enrolled in degree programs in the School of Engineering, School of Business, and School of Arts & Sciences, are required to complete an internship. Undergraduate students must plan for this internship during their third year immediately prior to the semester in which they intend to do their internship.

The internship program establishes a three-way partnership agreement among the American University of Ras Al Khaimah, an approved employment site, and the intern whereby the latter receives work experience under the supervision and guidance of a qualified professional. Supervised internship experiences provide an opportunity for students to synthesize, transfer, and apply learning gained through previous study and practice to all phases of the employer’s operation. The overall goal of the internship program is to expose students to the working environment and to provide the means for each student to mature both personally and professionally.

More information about the Internship program can be found in the AURAK Undergraduate Internship Manual available at the Office of Institutional Advancement.

**Career Development Services**
AURAK is committed to providing students with a wide range of career services. Our services have been designed to assist students in all stages of career planning. Students are provided with career advising sessions, career-related workshops, internship/training search support, and employer engagement opportunities on- and off-campus.

Students are strongly encouraged to visit the Office of Institutional Advancement and meet with an advisor in this office during their first year at AURAK and continue working closely with this office
to develop their career plan. Junior and Senior students are encouraged to visit this office at least twice every semester.

**International Student Programs and Exchanges**
The office of Student Success is responsible for supporting visiting study abroad and exchange students to our campus as well as assisting current AURAK students with their plans for study abroad/exchange. Additionally, this office assists with support of International students.

Part of the college experience is challenging yourself. Participation in a study abroad and/or exchange program in a new university in another country is the kind of challenge that allows for personal and academic maturity. These rich experiences encourage tolerance, acceptance, and discovery. They build character, adaptability, and increase one’s knowledge of international issues and people. All of these traits will serve you well in your future place of employment and in your community.

Both study abroad and exchange programs provide AURAK students the opportunity to enrich their educational experience by studying for a semester with one of AURAK’s International partner universities. These programs also provide students from partner institutions the opportunity to study at AURAK. All participants are required to successfully complete the Study Abroad and Exchange Application, sustain a minimum CGPA of 2.50, and demonstrate adequate financial support. Courses are selected under the guidance and approval of qualified academic advisors to ensure the successful transfer of credits.

Study abroad differs from the exchange program in the manner in which the participants are assessed tuition and fees. AURAK Study Abroad students pay the host institution for tuition and housing while exchange students pay AURAK tuition and the host institution for housing.

Those interested in study and travel abroad should contact the Office of Student Success in Building D.

Approval includes university-sponsored events both on and off campus.

**Misuse of Cyberspace including Blogging**

Students must refrain from misusing or abusing web-based technologies including internet, blogging, etc. to adversely comment or malign the reputation of the University, faculty, staff, students, or programs. Any issue or student concern should always be vetted through available channels with University authorities.

Reports of alleged student violations of university regulations may be submitted by any individual to the Associate Provost. Allegations of violations of the AURAK Code of Conduct are accepted for investigation only when the apparent infractions are observed on AURAK property, at AURAK Student events and activities off campus or at other locations at which AURAK provides services. Infractions of UAE or Ras Al Khaimah laws occurring off campus shall be the sole concern of the civil authorities, except when such actions: 1) directly affect the health, safety, or security of AURAK community, 2) affect AURAK’s pursuit of its educational goals, or 3) occur as a direct result of an AURAK-related activity.

All student behavioral misconduct will, if possible, be resolved by the Associate Provost for Student Success through mediation or through verbal and written warning. Examples of behavioral misconduct are provided in the AURAK Student *Handbook*.

The resolution of cases of behavioral misconduct by the Associate Provost may involve issuance of a verbal or written warning. However, should the Associate Provost judge that the conduct violation requires the student’s probation, suspension or dismissal. In this situation, the case will be referred to the Disciplinary Committee, following any immediate action warranted by the Associate Provost. **Academic Integrity Violations**

Behavior that violates the Student Academic Integrity Policy is addressed through specific procedures associated with that policy.
13. Code of Research Integrity

Introduction
The basic pillars of the mission of a university are education, research and innovation. Due to immense opportunities in innovation and increasing technological progress, huge expectations arise. Research is described in The European Code of Conduct for Research Integrity as “the quest for knowledge obtained through systematic study and thinking, observation and experimentation”. Hence, society and universities are dependent on the validity and reliability of the results of scientific work and academic scholarship. The outcome and interpretation of research can be verified by the scientific or academic community, but the research cannot be verified by the public for whom the new knowledge is intended. Therefore, in order to gain the confidence of society, the research of every institution needs to be valid and reliable. This expectation for reliable and valid research carries with it an ethical commitment to pursuing research in ways that ensure that this expectation is met. This code is intended to articulate the principles and standards of good research practice as a basis for a high standard of research quality at the university.

AURAK’S Research Code of Conduct provides guidelines for good practice in research, and guidance on avoiding misconduct in research. This code is based on codes and standards of a number of international organization.

AURAK is committed to maintaining the highest standards of rigor and integrity in the conduct of its research. Therefore, the University expects all those involved in research to be familiar with these standards and to embed good practice in all aspects of their work, including the training of new researchers.

Standards for good research practices

Conduct
1. Conduct the research accurately and with precision.
2. Employ research methods that are scientific and/or scholarly.
3. Make sure that the choice of research methods, data analysis, assessment of results and consideration of possible explanations is not determined by non-scientific or non-scholarly (e.g., commercial or political) interests, arguments or preferences.
4. Do not fabricate data or research results and do not report fabricated material as if it were fact.
5. Do not remove or change results without explicit and proper justification.
6. Ensure that sources are verifiable.
7. Describe the data collected for and/or used in the research honestly, scrupulously and as transparently as possible.
8. Manage the collected data carefully and store both the raw and processed versions for a period appropriate for the discipline and methodology at issue.
9. Contribute, where appropriate, towards making data findable, accessible, interoperable and reusable in accordance with the FAIR Principles developed by the organization GO FAIR in collaboration with the Committee on Data (CODATA), Research Data Alliance (RDA), and World Data Systems [3].
10. Take into consideration the interests of any humans and animals involved, including test subjects, as well as any risks to the researchers and the environment, while always observing the relevant statutory regulations and codes of conduct.

11. Maintain a level of expertise appropriate to the research undertaken.

12. Take on only those tasks that fall within one’s area of expertise.

Research Misconduct and other Unacceptable Research Practices

The European Code of Conduct for Research Integrity defines research misconduct as fabrication, falsification, or plagiarism (the so-called FFP categorization) in proposing, performing, or reviewing research, or in reporting research results:

- **Fabrication** is making up results and recording them as if they were real.
- **Falsification** is manipulating research materials, equipment or processes or changing, omitting or suppressing data or results without justification.
- **Plagiarism** is using other people’s work and ideas without giving proper credit to the original source, thus violating the rights of the original author(s) to their intellectual outputs.

These three forms of violation are considered particularly serious since they distort the research record.

AURAK Research Code of Conduct is available in the website. To access it; please follow the link below:

**14. Expectations for Academic Integrity**

**AURAK Honor Code**

To promote a stronger sense of mutual responsibility, respect, trust and fairness among all members of AURAK community and with the desire for greater academic and personal achievement, we, the student members of the University community, have set forth this honor code:

**AURAK Honor Code**

As a member of the AURAK family, I pledge to be reliable, responsible and honorable, and embrace only the success and recognition I earn and deserve.

I will act with integrity and honesty, and will strive daily to become the best version of myself – a decent human being, a conscientious student, a good citizen, and a successful professional.

In 2019 – 2020 AURAK Students, led by the Student Government Association created a new Honor Code. The role of the Honor Code and associated Academic Integrity Policy is to protect the academic integrity of the university, encourage consistent ethical behavior among students, and foster a climate
of honorable academic achievement. The Honor Code is an integral part of university life and students are responsible, therefore, for understanding and abiding by the code’s provisions. While a student's commitment to honesty and personal integrity is assumed and expected, this Code and associated policy and procedures provides clarity of expectations. To maintain an academic community according to these standards, students and faculty follow the reporting policy and procedures herein.

At the beginning of each semester, faculty members have the responsibility to explain the Honor Code and their expectations for students in each class with special focus on plagiarism as well as specifics related to anticipated coursework and assignments. They must also explain the extent to which aid from others, if any, is permitted on academic work. Students should request an explanation of any aspect of an instructor's expectations regarding the Honor Code that they do not fully understand. Students have an obligation not only to follow the code themselves, but to encourage respect for and compliance with provisions of the code by other students. This includes the student obligation to report potential violations by fellow students and to understand that not doing so may also violate the Honor Code.

Faculty members are responsible for maintaining the integrity of the learning and evaluation process. Faculty members are expected to actively proctor exams, and should enforce the prohibition on possession of mobile phones during exams. Faculty may also take any additional action they believe is warranted to assure academic integrity.

While the internet and easy access to information and knowledge is commonplace, the University is committed to students understanding and demonstrating the ethical foundational values of scholarship. For all academic assignments, project work, and presentations, students need to ensure that due acknowledgement is given to the source of any information which they incorporate in their work.

*Expectations*

Cheating, plagiarism, and all other forms of academic fraud are unacceptable; they are serious violations of university policy. AURAK expects all students to be familiar with university policies on academic integrity. The university will not accept a claim of ignorance—either of the policy itself or of what constitutes academic fraud—as a valid defense against such a charge.

*Violations of Academic Integrity*

Violations of academic integrity constitute academic fraud. Academic fraud consists of any action that serves to undermine the integrity of the academic process or that gives the student an unfair advantage, including:

- inspecting, duplicating or distributing test materials without authorization.
- cheating, attempting to cheat, or assisting others to cheat – relevant here is the prohibition on being in possession of a mobile telephone or similar electronic device during a test or examination. In case such devices are found with a student, the student will be deemed to have attempted to cheat and will be subject to disciplinary action under this policy.
- altering work after it has been submitted for a grade.
- plagiarizing.
- using or attempting to use anything that constitutes unauthorized assistance.
- fabricating, falsifying, distorting, or inventing any information, documentation, or citation.

Each student’s program may have on record additional specific acts particular to a discipline that constitutes academic fraud. These specific acts are specified in relevant handbooks or course syllabi.

Statement on Plagiarism
One of the most common violations of academic integrity is plagiarism. Plagiarism can be intentional or unintentional. However, since each student is responsible for knowing what constitutes plagiarism, unintentional plagiarism is as unacceptable as intentional plagiarism and commission of it will bring the same penalties. In many classes, faculty members will provide their definitions of plagiarism. In classes where a definition is not provided, students will be held to the definition of plagiarism that follows:

Definition of Plagiarism. Plagiarism—submitting the work of others as one’s own—is a serious offense. In the academic world, plagiarism is theft. Information from sources—whether quoted, paraphrased, or summarized—must be given credit through specific citations. When a student paraphrases a work, it is still necessary to cite the original source. Merely rearranging a sentence or changing a few words is not sufficient. The citation style should be appropriate for the discipline and should clearly indicate the beginning and ending of the referenced material. All sources used in the preparation of an academic paper must also be listed with full bibliographic details at the end of the paper, as appropriate in the discipline.

Faculty and Student Responsibilities
- Every student, faculty member, and administrator is responsible for upholding the highest standards of academic integrity. Every member of the AURAK community shall honor the spirit of this policy by refusing to tolerate academic fraud.
- When expectations for a course are not addressed in this policy, it is the responsibility of the instructor to provide students with additional guidelines for what constitutes “authorized” and “unauthorized” assistance.
- It is the responsibility of every student to seek clarification if in doubt about what constitutes “authorized” and “unauthorized” assistance. In cases involving collaborative work, all students within the collaborative group may be held responsible for violating the code if any member of the group receives, accepts, or utilizes “unauthorized” assistance.
- Students are required to obtain permission prior to submitting work, any part of which was previously or will be submitted in another course. The instructor has the option of accepting, rejecting, or requiring modification of the content of previously or simultaneously submitted work. A student who suspects that a violation of academic integrity has occurred should report that violation to the dean or to the Office of the Provost. In this report, the student should describe any action taken, such as talking with the person involved or with a faculty or staff member. Every effort will be made to preserve the anonymity of the student reporting the incident; however, confidentiality cannot be guaranteed.
Resolution at the Faculty/Student Level

Process
A faculty member who becomes aware of possible academic fraud should inform the suspected student(s) in writing and send a copy to the dean and to Office of the Provost. The faculty member will also provide the student with the opportunity to respond to the charges within five working days. If the student fails to respond to this opportunity, the student forfeits any right to appeal the decision, and the faculty member will determine the penalty. If the student does respond to the charges but does not accept responsibility for the academic fraud or disagrees with the sanction imposed by the faculty member, the student may appeal the outcome to the Academic Review Board (consisting of the members of the Provost’s Council and two elected representatives from the Faculty Senate, and one SGA representative).

The suggested penalty for academic fraud in any course is failure in the course. However, faculty members may take alternative steps. Penalties available to faculty members include formal warning, Reduction in grade for the assignment, Reduction in the grade for the course, Failing grade for the assignment, a failing grade (F) in the course,

Reporting and Offenses Subject to Expulsion
In all cases where a faculty member informs a student of possible academic fraud, the faculty member will inform the dean and the Office of the Provost as the office of record. In cases where a faculty member takes action for a case of academic fraud, the faculty member will send a report describing the academic fraud and the penalty being imposed to the student is enrolled, and the Office of the Associate Provost for Student Success as the office of record. All reports of academic fraud will be reviewed by the Associate Provost to verify whether reports have been received indicating that the student has been found responsible for any other act of academic fraud.

Penalties
The maximum penalty imposed by the Academic Review Board for individuals convicted of academic fraud shall be expulsion from the university. Penalties include:

- An F grade in the course. An F grade assigned for course will replace any other grade previously posted for the course.
- Removal of the privilege of representing the university in extracurricular activities, including athletics, as well as the privilege of running for or holding office in any student organization that is allowed to use university facilities or receives university funds.
- Suspension from the university for up to one academic year. Students suspended for academic fraud cannot transfer into AURAK any credits earned during the suspension.
- Dismissal from the university. A student dismissed for academic fraud will have a comment added to the student’s transcript to indicate that the student was dismissed for academic fraud. Students dismissed for academic fraud must apply for readmission according to the Academic Review Board guidelines. Readmission applications by students suspended for academic fraud must be approved by the Academic Review Board.
- Expulsion from the university without the opportunity for readmission. A student expelled for academic fraud will have a comment added to the student’s transcript to indicate that the student
was expelled for academic fraud.

**Appeals/Decisions**

When a student is expelled or dismissed by the Provost, the student may initiate his or her appeal to the Academic Review Board by notifying the Associate Provost for Student Success in writing of the request for an appeal, together the concise statement of the student's grounds for the appeal, must be received by the Associate Provost no more than ten working days following the decision of the faculty or the Provost.

When a case is referred to the Academic Review Board, the Associate Provost shall notify the student in writing of the time and location for the Academic Review Board hearing. A majority of the Academic Review Board shall constitute a quorum for purposes of conducting any matters to come before the Academic Review Board pursuant to these standards. Any faculty member on the Academic Review Board involved in the original accusations will not participate in deliberations in that case. At an appeal before the Academic Review Board, the student shall have the opportunity to be heard and the right to produce witnesses or introduce evidence subject to the reasonable discretion of the Academic Review Board. The student may also be accompanied by a representative of his or her choosing who may not participate in the appeal.

The Academic Review Board shall not be subject to any evidentiary rules but shall accept or reject evidence at its sole discretion. All appeals shall be closed to the public and no stenographic record shall be required unless requested at the expense of the requesting party. In the absence of a stenographic record, the Academic Review Board shall provide, in its sole discretion, either a recorded record or notes of the proceedings taken by a member of the Academic Review Board. The results of all appeals to the Academic Review Board, permitted in the Academic Integrity Policy, shall be final. The Academic Review Board will communicate its final decision to the student, the dean of the school in which the student is pursuing a program of study, the Provost, and the Department of Registrar.

Any matter submitted to a faculty member or the university for decision or review under this policy shall be decided in a timely manner. The parties shall use their best efforts to conclude the proceedings within the semester in which the alleged offense has occurred or the appeal is received. However, any delay in the proceedings shall in no way operate as a waiver of the university's right to assess any or all of the sanctions permitted under the Academic Integrity Policy.

**15. Disciplinary Policies, Grievances and the Appeal Process**

AURAK is committed to treating all members of the University community fairly in regard to their personal and professional concerns. Any AURAK student who believes that he or she has not been treated fairly may make use of the student grievance process. The primary objective of the student grievance process is to ensure that concerns are promptly dealt with and resolutions reached in a fair and just manner.

For these purposes, a grievance is defined as dissatisfaction or a disagreement with any decision or

The Office of Student Success is available to answer any questions that may arise concerning AURAK’s grievance policies and procedures. Please feel free to visit should you require additional information.

**16. AURAK Student On-Campus Dress Guidelines**

AURAK seeks to maintain the highest standards of professionalism at all times and the appearance of students is a reflection of those standards. Students and their guests are expected to dress in a modest manner that respects Emirati customs and traditions and to attend the University in clothing that is suitable for the UAE workplace. We expect each student to act and dress appropriately while on campus in preparation for important professional and leadership roles and responsibilities after graduation.

As a result, students are expected to respect themselves and others by their dress while on campus, demonstrating appreciation for the local culture and traditions of the United Arab Emirates. Guidelines for appropriate and professional student dress are described below.

Please note that since no set of guidelines can cover all possibilities of dress, the Manager for Student Life may determine that any specific aspect of campus dress may not meet the high standards of AURAK professionalism and will communicate that to the student(s) involved.

**Dress Expectations for Male Students**
- National dress (Kandura, Ghatra and Ugal)
- Elbow length and long sleeve shirts only with no sleeveless or tank tops.

17. Campus Safety

AURAK is committed to providing an environment that is reasonably free from recognized safety hazards and complies with applicable laws concerning hazardous chemicals, fire prevention, occupational health and safety, handicapped accessibility, and the environment. To effectively meet the goal of reducing accidents and illnesses, AURAK has developed a Comprehensive Safety Plan. The Safety Office manages the plan and reviews it annually to meet the appropriate needs of AURAK. Efforts are channeled into several specialty areas, for example, fire protection, occupational health and safety, asbestos management, environmental health, emergency planning, and risk management.

In coordination with the AURAK Safety Office and other departments, AURAK security develops and promulgates procedures to respond to civil disturbances, hazardous material incidents, fire, gas leaks, severe weather conditions, and other potential threats to campus safety and security. Additionally, individual security officers are encouraged to report unsafe conditions observed while on patrol and while serving as first responders to accidents. To ensure safe work practices during all university activities, the Safety Officer makes certain that appropriate environmental health and safety rules and regulations are written, published, and communicated to employees and students.

**AURAK Student ID**

AURAK students must present their Student ID in order to enter the AURAK campus. The Student ID may be obtained from the Department of Admissions.

**Awareness Programs**

Health and safety awareness programs are developed and regularly scheduled for students at AURAK. The purpose of these programs is to promote a safer and healthier campus environment by helping students become aware of their behavior. The Office of Student Life may present programs regarding topics which include alcohol and substance abuse, and other health and safety issues.

**Fire Drills**

EDRAK reports that, in cooperation with the Administration Manager and Emergency Planning of Ras Al Khaimah Civil Defense Department, AURAK Office of Facilities Management and Logistics and AURAK Security, fire drills are conducted in the residential halls at least once a semester.

**Emergency Evacuation Routes**

AURAK campus has developed standardized emergency evacuation maps and evacuation routes for every building on the campus. These maps are prominently displayed on every floor in A3 sized acrylic plastic displays. Individual evacuation plans may be developed for any employee or student who has a disability and who may require special assistance in the event of an emergency building evacuation. Faculty, Staff, Supervisors and students must identify individuals requiring special assistance, or individuals may self-identify, to the Office of Facilities Management who will then coordinate the development of an individualized evacuation plan.
Fire Safety Plan
The Fire Safety Evacuation plan provides instructions for identifying, monitoring and addressing fire safety issues at AURAK. The plan describes emergency procedures, building evacuation drills, inspections, training and guidelines to follow in the unfortunate event of a fire. In addition, names and contacts of those persons who should be contacted in case of emergency are displayed in the labs.

Fire Suppression Equipment
AURAK maintains various fire suppression systems in each building. These include: fire extinguishers, standpipes and fire hose reel water pumps strategically placed throughout AURAK campus. Approximately 124 portable fire extinguishers are located around and inside AURAK campus building. In addition, off-campus residences and other buildings have additional extinguishers. The Office of Risk Management, in conjunction with the Office of Facilities Management and Logistics and the Office of Human Resources, conducts training for emergencies such as First Aid, CPR and use of fire extinguishers. These trainings are conducted periodically throughout the academic year. In addition, an outside contractor inspects fire suppression systems on campus on a quarterly basis to ensure they are filled and functional.

Kindly note the following:
Emergency exits should be used during emergencies only. Please comply accordingly for safety and security reasons. Misuse or abuse of emergency exits, will lead to warnings and discipline.

18. Student Records and Right to Privacy

A student’s education record is defined as files, materials, or documents including those in electronic format that contain information directly related to the student and maintained by the University. The following documents are stored as a student’s record:

- Application form
- Personal Details: the student’s name, address(es), telephone number(s), e-mail address, photographs, birth date and place, program undertaken, dates of attendance, credential awarded, copy of Emirates ID.
- Certificates and transcripts of all the qualifying examinations
- Admission letter, visa copies, passport copies
- Enrollment and registration to the program
- Transcripts and degree progress

The record keeping system ensures that records are adequately created, managed, and archived. The system assures confidentiality, access only by authorized users, and secure record keeping. The Registrar has the authority to access student records and to manage and update student records. Student records are kept on file for a period of five years after graduation; an official transcript is kept for the lifetime of the student.

Students may request to see the contents of their educational records at any time including grades and other relevant information. Students may also request amendment of information in their educational
records. Requests must be made in writing and submitted to the Registrar for consideration. All AURAK students have the right to access their grades on-line through the CampusVue Student Portal System.

Access to a student’s education records is available to authorized officials of AURAK for academic purposes, such as recording grades, attendance, advising, or review of academic progress. Education records may be disclosed to university officials having a legitimate educational interest without prior written consent. University officials are those employed by the university in an administrative, counseling, supervisory, academic, student support services, or research position. School officials also include persons employed by or under contract by the university to perform a special task.

Identification of an individual as a university official does not automatically grant access to educational records. In all cases, a legitimate educational interest must be established. Legitimate educational interests include the following:

- The information is necessary for the official to perform appropriate tasks specified in his or her position description or by a contract agreement.
- The information is to be used within the context of official university business.
- The information is relevant to the accomplishment of some task or to a determination about the student.

In all cases, the information must be used consistently with the purposes for which the data are maintained. The confidentiality of student information is periodically reviewed in order to check the efficacy of the system. Student records are not disclosed to any third party unless a student gives permission for this in writing. The only exception to this is to official accreditation bodies conducting a review or government/law enforcement officials.

### 19. Accessing Academic Policies

Q: How to withdraw temporarily?
On a case-by-case basis a student can be forced to file temporarily withdrawal. A student cannot simply

If a temporary withdrawal is granted for a semester or a year, a student will be given a semester to apply for re-admission. Unless there are extenuating circumstances such as illness, a leave of absence is not normally given to a student who leaves the university during a term.

Official withdrawal removes students from any academic program and cancels student status at AURAK. In order to return to the university, students need to apply for re-admission through the Admissions office. Students who wish to withdraw have to complete a ‘withdrawal form’ available at the Registrar’s office and get clearance from all university departments. If the withdrawal process is completed satisfactorily and all financial obligations to the university are cleared, the effective date of withdrawal is noted on the student’s permanent academic record. The effective date is the date used for calculating billing or refunds. No grades other than a W for the current semester are recorded.

If a student wishes to return, he/she needs to apply for re-admission through the Admissions office.
