The advisement process is available to assist the student in completing his or her studies, but responsibility lies ultimately with each student.

Academic advising is the responsibility of full-time faculty members. In each academic department that houses a degree or minor program, each student major and minor is assigned a full-time faculty member in the department to serve as the student's academic advisor. Typically, advisees are distributed equally among the full-time faculty in the relevant academic departments.

- ❖ To collaborate with colleagues to provide the strongest academic advisement possible.

Student Responsibilities

Student responsibilities are as follow.

- ❖ Students are expected to meet with their advisors as requested by the advisor or by the department chair.
- ❖ Each student is expected to meet with his or her advisor during the second semester of the third year of study to discuss the student's progress to graduation and degree audit. Timely graduation may depend on this meeting.
- ❖ Students with their advisor are expected to keep regular track of their progress to degree through their individual Advisement Plan.
- ❖ Students are expected to enroll in required courses when they are available and their schedules permit. They should not assume that all required courses will be offered every semester.

University Responsibilities

AURAK ensures through the offices of the Provost and the Deans that a sufficient number of appropriate and necessary courses are offered in a timely fashion to enable students who plan carefully to complete their education without unnecessary delay. The AURAK Advisement Coordinator and the Center for Teaching, Learning, and Instructional Technology (TLC&IT) are available to assist all faculty and students with the advisement process. AURAK Honor Code

Students are responsible for understanding the Code's provisions. Cheating and attempted cheating, plagiarism, lying, and stealing of academic work and related materials constitute Honor Code violations. To promote a stronger sense of mutual responsibility, respect, trust and fairness among all members of AURAK community and with the desire for greater academic and personal achievement, we, the student members of the University community, have set forth this honor code:

"Student members of the American University of Ras Al Khaimah community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work."

In the spirit of the Honor Code, a student's word is a declaration of good faith acceptable as truth in all academic matters until proven otherwise. To maintain an academic community according to these standards, students and faculty must report all alleged violations to the Office of Student Services and

Enrollment Management. Any student, who has knowledge of a violation but does not report it, may be penalized for violating the Honor Code.

For all academic assignments, project work, and presentations, students need to ensure that due acknowledgement is given to the source of any information which they incorporate in their work. Students must ask their professors if they are unsure whether or not something constitutes academic misconduct in any form. The following are some examples of academic misconduct:

Violations of the Academic Integrity: Plagiarism

This is a serious academic offense which constitutes the use of someone else's ideas, words, projects, artwork, phrasing, sentence structure or other work without properly acknowledging its source. Plagiarism is dishonest because it misrepresents the work of someone else as one's own. To perform any of the above mentioned activities is intellectual theft as it robs others of credit for their work. For a student found plagiarizing, the punishment can range from receiving a failing grade on that particular assignment without the right to redo the assignment all the way up to a student receiving a failing grade for the entire course. Plagiarism takes many forms and includes:

- ❖ Using unique, original ideas, phrases, sentences, paragraphs, etc. from a single source or a variety of sources such as a text, journal, web page, electronic source, design, artwork, etc. in one's work without citing all sources.

16. Student Records and Right to Privacy

A student's education record is defined as files, materials, or documents including those in electronic format that contain information directly related to the student and maintained by the University. The following documents are stored as a student's record:

- ❖ Application form
- ❖ Personal Details: the student's name, address(es), telephone number(s), e-mail address, photographs, birth date and place, program undertaken, dates of attendance, credential awarded, copy of Emirates ID.
- ❖ Certificates and transcripts of all the qualifying examinations
- ❖ Admission letter, visa copies, passport copies
- ❖ Enrollment and registration to the program
- ❖ Transcripts and degree progress

The record keeping system ensures that records are adequately created, managed, and archived. The system assures confidentiality, access only by authorized users, and secure record keeping. The Registrar has the authority to access student records and to manage and update student records. Student records are kept on file for a period of five years after graduation; an official transcript is kept for the lifetime of the student.

Students may request to see the contents of their educational records at any time including grades and other relevant information. Students may also request amendment of information in their educational records. Requests must be made in writing and submitted to the Registrar for consideration. All AURAK students have the right to access their grades on-line through the CampusVue Student Portal System.

Access to a student's education records is available to authorized officials of AURAK for academic purposes, such as recording grades, attendance, advising, or review of academic progress. Education records may be disclosed to university officials having a legitimate educational interest without prior

written consent. University officials are those employed by the university in an administrative, counseling, supervisory, academic, student support services, or research position. School officials also include persons employed by or under contract by the university to perform a special task.

Identification of an individual as a university official does not automatically grant access to educational records. In all cases a legitimate educational interest must be established. Legitimate educational interests include the following:

- The information is necessary for the official to perform appropriate tasks specified in his or her position description or by a contract agreement.
- The information is to be used within the context of official university business.
- The information is relevant to the accomplishment of some task or to a determination about the student.

In all cases, the information must be used consistently with the purposes for which the data are maintained. The confidentiality of student information is periodically reviewed in order to check the efficacy of the system. Student records are not disclosed to any third party unless a student gives permission for this in writing. The only exception to this is to official accreditation bodies conducting a review or government/law enforcement officials.
