

AFFIRMATION STATEMENT

GREENHOUSE GAS EMISSIONS

ZeeDimension was engaged to conduct an assessment of the greenhouse gas (GHG) emissions reported by American University of Ras al Khaimah (AURAK) in the UAE for the reporting period September 1, 2023 to August 31, 2024. This affirmation statement applies to the related information included within the scope of work described below.

Scope of Work

The assessment covers the following emission sources:

- **Scope 1 (Direct Emissions):** Emissions from campus **vehicle fleet, diesel generator** and **A/C & Refrigerants**
- **Scope 2 (Indirect Emissions):** **Purchased electricity** consumption and associated emissions.
- **Scope 3 (Other Indirect Emissions):** **Water consumption/supplied, Wastewater Disposed,** and **waste-related emissions.**

Assessment Methodology

Our assessment process included:

- Data collection methods and calculation methodologies as per GHG Protocol.
- Cross-checking reported data against invoices, fuel logs, and utility records.
- Interviews with relevant personnel responsible for data reporting.

Assessment Findings

Based on our comprehensive review, we **assure that the report has been thoroughly examined, and all identified inconsistencies and errors have been resolved and addressed prior to its submission. The reported GHG Emissions Data is materially accurate, fairly presented and free from significant misstatements.**

Scope-wise Emissions Total:

- **Scope 1:** 2465.60 metric tons CO₂e
- **Scope 2:** 4152.37 metric tons CO₂e
- **Scope 3:** 729.26 metric tons CO₂e

Conclusion

ZeeDimension hereby confirms that the reported Greenhouse Gas (GHG) emissions inventory complies with the requirements of the GHG Protocol Standards, and the data provided is suitable for inclusion in carbon footprint disclosures.
